1. Mobile Devices System Requirements

The mobile dictionaries will run on the following devices with the system requirements below:

- **J2ME:** CLDC 1.1, MIDP 2.0, minimum heap size 1.5 MB, minimum jar size 2 MB.
- **BlackBerry:** BB OS 4.2 for non-touch device and 4.7 for touch device.
- **Android Devices:** Android OS 1.6

2. Mobile Dictionaries Currently Available

Collins Escolar Plus Mobile Dictionary: English to Portuguese
The program includes the application, headwords, translations and other text content.

Collins Escolar Plus Mobile Dictionary: Portuguese to English
The program includes the application, headwords, translations and other text content.

COBUILD 'To Go Dictionary'
This monolingual American English Dictionary covers the 6,000 most useful words in English. The program includes the application, headwords, definitions, and other text content.

3. Accessing Your Mobile Dictionary

To access your mobile dictionary, you must have an access-code and a device meeting the above system requirements.

Step 1: Go to the website **mobile.heinle.com**.

Step 2: Enter your access code.

Step 3: Enter your mobile number. You must also enter your country code. There is a list of country codes provided to you. Then confirm your mobile number.

Please note that if the mobile number includes a city code, please include the city code before the mobile number in the mobile number field.

Example: For users of Mobile phone in Brazil, they need to include the two digit area code before their mobile number. If the user is in 'Rio de Janeiro', then the city/area code is 21. So the user would have to enter the country code '55', followed by city code '21' and then the mobile number.

Step 4: Select Device Type - J2ME, Blackberry or Android.

Step 5: Select Dictionary Type - Select the mobile dictionary type from the drop down list.

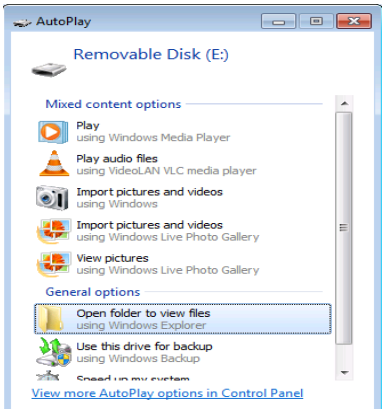
Step 6: Click the 'Submit Request' button - Once you click 'Submit Request' button, you should receive an SMS text message with a link to download the mobile dictionary to your device.

4. Downloading through cable

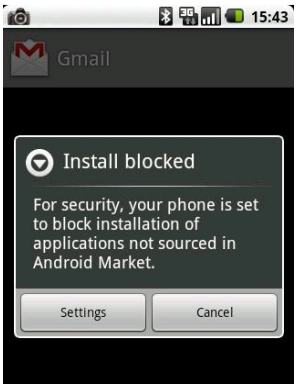
Android Device

Please Note: The steps and procedure as mentioned below might change based upon the device and OS version. For more details, please refer to the device manufacturer's manual.

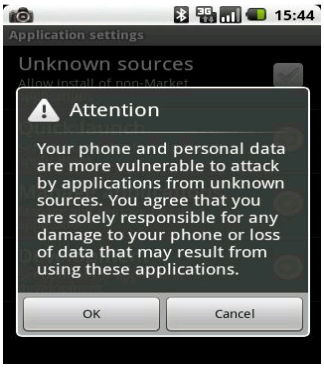
1. Connect the device to the PC using the USB cable.
2. Options will be displayed on the connection type: 'Charge only', 'HTC Sync', 'Disk Drive' or 'USB' tethering'.
3. Click 'Disk Drive' and then click 'Done'.
4. Following screen will be displayed.



5. Click 'Open folder to view files'.
6. Click on 'Downloads'.
7. Copy the .apk file into downloads. The .apk file is copied to the downloads folder in your device.
8. Double click on the .apk file on your device to start the installation.
9. If you get a message as 'Install Blocked' as shown in the screen below,

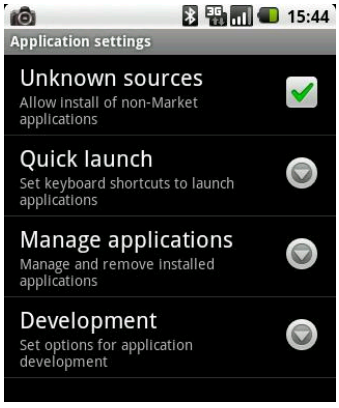


Then go to 'Application settings', and tap the checkbox: 'Unknown Sources' and the screen is displayed as shown below:



15:44
Application settings
Unknown sources
Attention
Your phone and personal data are more vulnerable to attack by applications from unknown sources. You agree that you are solely responsible for any damage to your phone or loss of data that may result from using these applications.
OK
Cancel

Click 'OK' and the screen will be displayed as,



10. Now you can double click the .apk file to install it.

J2ME Device

Please Note: The steps and procedure as mentioned below might change based upon the device and OS version. For more details, please refer to the device manufacturer's manual.

1. In order to download the application from PC to device, you should have PC suite version or similar software installed on your machine. Example for Nokia Phone it will be Nokia PC Suite Version 7.0.9.2*, similarly for Samsung Phone you would need Samsung PC suite version.

2. Connect your device to PC using USB cable.

3. Select the mode “PC Suite” on device.

4. Open the appropriate device browser * and copy the ‘.jad/.jar’ files to the desired location.

5. Click on the appropriate jad and jar files to install them on to device.

6. Follow the device instructions for application installation.

BlackBerry Device:

**** Please Note: The steps and procedure as mentioned below might change based upon the device and OS version. For more details, please refer to the device manufacturer’s manual.***

(Refer “User Guide - How to Run Blackberry and J2ME Executable” document”)

1. You should have BlackBerry Desktop Manager Version 4.3*, on your machine.

2. Connect your device to PC with USB cable and copy the .alx file to the appropriate location on the device.

3. Open BlackBerry Desktop Manager and click on Application Loader.

4. Open the Application loader and then select ‘Add/Remove’ applications.

5. Press the ‘Start Key’ and the device Manager gives a list of all the applications on your device.

6. Click on the ‘Browse’ button and navigate to the location for the appropriate .alx file.

7. Select the appropriate .alx file and click on ‘Open’.

8. You will be brought back to the application loader screen, make sure that the check mark is next to the applications you want be loaded onto your BlackBerry, and then click the “Next” button.

9. Follow the Device instructions to proceed with the installation.

5. Installing the Application on the Device

1. Open the link that you get from the SMS message and download the application on the device.

2. Double click on the application file and follow the instructions on the device on how to install it.

6. How to Use the Dictionaries

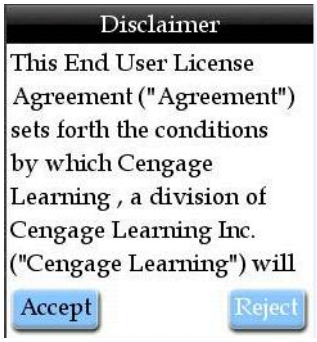
Screen appearance may vary depending on device.

*** J2ME, ** BlackBerry, *** Android**

a) Disclaimer Screen

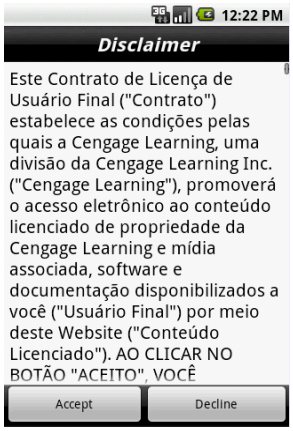
After clicking on the installed dictionary, users are presented with the disclaimer screen*.

Note: The Disclaimer screen is the same for Java, Android and Blackberry platforms for **COBUILD 'To Go Dictionary' and 'Collins Escolar Plus Mobile Dictionary: English to Portuguese'**. The screen shot is as shown below.



Disclaimer
This End User License Agreement ("Agreement") sets forth the conditions by which Cengage Learning , a division of Cengage Learning Inc. ("Cengage Learning") will
Accept
Reject

Note: For **Collins Escolar Plus Mobile Dictionary: Portuguese to English**, the disclaimer screen looks like as shown below.



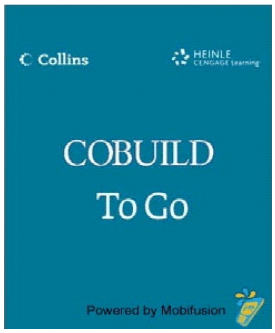
12:22 PM
Disclaimer
Este Contrato de Licença de Usuário Final ("Contrato") estabelece as condições pelas quais a Cengage Learning, uma divisão da Cengage Learning Inc. ("Cengage Learning"), promoverá o acesso eletrônico ao conteúdo licenciado de propriedade da Cengage Learning e mídia associada, software e documentação disponibilizados a você ("Usuário Final") por meio deste Website ("Conteúdo Licenciado"). AO CLICAR NO BOTÃO "ACEITO", VOCÊ
Accept
Decline

Users must click 'Accept' to agree to the Cengage End User License Agreement in order to proceed further. For J2ME, users can select Accept/Reject options. For Blackberry devices, users **must use the menu key to see the Accept/Reject selection.**

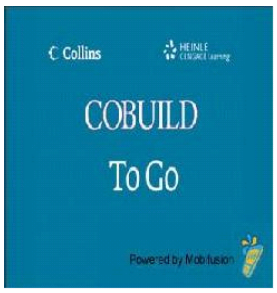
Please Note: The application must be saved on the user's handsets. If there is not enough memory on a user's handset, a message will inform the user that not enough memory is available (i.e. "Unable to install. Not enough memory."). The message text may vary from device to device.

b) Splash Screen

While launching the application, the Splash screen* is displayed. This screen will be displayed for 3 seconds.



Screen Shot **



Screen Shot ***
